CONSORTIUM MEETING

31 August – 1 September 2015
deCode Genetics, Reykjavik, Island

Monday, 31 August

9.30 - Welcome

Viorel Jinga, Thorunn Rafnar, Andrei Manolescu

10.00 - Overview of the progress on each work package

✓ 10.00 – WP1 Subject recruitment – **Dana Mates** (NIPH)

✓ 10.20 - WP2 Epidemiological and phenotypic data

- 10.20 - Subject recruitment, epidemiological and phenotypic data of lung cancer patients – **Olga Danaila** and Diana Leonte, Cristian Paleru (National Institute of Pneumophtisiology “Marius Nasta”)
- 10.40 - Patient recruitment, epidemiological and phenotypic characteristics of breast cancer patients – **Serban Mihai Bogdan**, Ion Daniel (University Emergency Hospital Bucharest), Mariana Jinga (Central Military University Hospital)
- 11.00 - Recruitment of patients, epidemiological and phenotypic data of colon cancer subjects – **Boeriu Marius Gheorghe**, Mates Ioan Nicolae (Clinical Hospital “St. Mary”)
- 11.20 - Subject recruitment, epidemiological and phenotypic data in prostate cancer patients – **Dumitrache Mihai** (Urology Hospital “Th. Burghele”)
- 11.40 – Cancer susceptibility – familial breast/colon cancer; personal history of other cancers – **Irma Csiki** (NIPH)

12.00 Lunch

13.00 - Overview of the progress on each work package (continued)

- ✓ 13.00 - WP4 Biostatistics and bioinformatics – **Andrei Manolescu** (RU)
- ✓ 13.20 - WP3 Exome (whole-genome) sequencing, genotyping and imputation - **Thorunn Rafnar** (deCode)
- ✓ 13.40 WP5 Project management and coordination - Overview of the first financial and scientific report for the period 01.07.2014-31.12.2014 – **Viorel Jinga** (UMPCD)

14.00 - Tour of deCode's main facilities

15.00 Coffee

15.15 - Meeting of Steering Committee and Operational Group

16.15 - End of the first day

Tuesday, 1 September

9.30 - Summary of Steering Committee meeting – **Viorel Jinga** (UMPCD)

10.00 – Deliverables, milestones and plan for the next period – **Dana Mates** (NIPH)

10.15 - Plenary lecture – **Patrick Sulem** (deCode Genetics) - How can we use genetics to reduce the burden of cancer?

11.15 Coffee

11.30 - Genetic aspects in prostate adenocarcinoma – **Radavoi Daniel** (Urology Hospital “Th. Burghele”)

11.45 - Replication study of 34 common SNP's associated with prostate cancer in the Romanian population – **Badescu Daniel** (Urology Hospital “Th. Burghele”)

12.00 Lunch

13.00 – Summary of the PhD project – **Paul Iordache**, PhD student - Genetic variants associated with cancer and their relevance to clinical practice in Romania

14.15 – Dissemination plan – proposal for future analysis

15.00 – End of the meeting
